The District Court of Guam has amended some of its local rules of practice in order to achieve consistency and/or compliance with the recent time computation amendments to the Federal Rules of Bankruptcy Procedure, Civil Procedure, Criminal Procedure and Appellate Procedure. These amendments became effective today, December 1, 2009 and shall apply to all cases.

The changes are the result of a major project to make all the federal rules on computing time periods simpler, clearer, and consistent. The local rule changes and the general order that adopts them may be found at:
